Manolis Michalodimitrakis, M.D., J.D.
Director of the Department of Forensic Medicine
Medical School
University of Crete
Heraklion University Hospital
GR 71110 Crete

Dear Manny:

Congratulations on becoming the official representative for the European Union for Medical Specialists in Forensic Pathology, and President of the Hellenic Association of Forensic Pathologists. These honors and responsibilities are well-deserved and have been well-earned through your hard work in the United States, as well as in Greece.

In addition to your important public health and criminal justice responsibilities, your appointment comes at a time of worldwide concerns about terrorism, natural and man-made mass disasters, and biologic and chemical threats that demand improved and expanded forensic pathology expertise globally. The forensic pathologist can also provide early warnings by quickly identifying terrorist deaths.

I know that you have the knowledge, ability, qualifications and will to develop strong forensic programs throughout Greece.

With great expectations for your success and best wishes,

Michael M. Baden, M.D.
Former Chief Medical Examiner
New York City, U.S.A.
